~~SECRET~~/NOFORN-SKEET CHANNELS ONLY

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

Session Procedures Report (S/NF/SK)

PROJECT NUMBER: 8711

SESSION NUMBER: 6

DATE OF SESSION: 6 AUG 87

TARGET COUNTRY: IRAN

REFERENCE:

MISSION STATUS:

TECHNIQUE UTILIZED: CRV

SOURCE IDENTIFIER: 003

1. (S/NF/SK) Monitor Tasking: Using encrypted coordinates (provided), determine [REDACTED] during the following windows: August, September, October, November and December 1987.

SG1A

2. (S/NF/SK) Source Tasking: Source was provided with new coordinates; no other cues were provided. Monitor intent, in anticipation of further tasking against this problem, was a further exploration into this problem.

3. (S/NF/SK) Summary: Source summary attached.

4. (S/NF/SK) Comments: Possibly a pre-emptive or retaliatory anti-terrorist action.

~~SECRET~~/NOFORN-SKEET CHANNELS ONLY

CLASSIFIED BY: DIA-DT

Site involves a blockish, masonry, largish building, white or cream color, inside which is considerable open space. There is a group of individuals inside working together on something intricate. The sense of preparing, assembling, connecting pervades. Parts and wires are involved. The people are talking to each other, asking and giving suggestions and directions. An event is involved here as well, which takes the form of some sort of ~~unexpected intervention or interdiction~~ of this activity from the ~~outside~~. This intervention causes a complete change of plans of the group doing the assembling (group 1), or perhaps even an outright cancellation or total disruption of what was planned. Group 1 is "eclectic", "unofficial", somewhat heterogenous, but united by some particular purpose or goal. They are "like" private citizens acting on their own not necessarily in the best interest of their government or nation. They are shorter and darker in physical appearance. They are clustered around an object, with the idea of putting subsystems together in a semi-permanent manner so that these subsystems can interact and fulfill the purpose of the overall system. There is an idea of access panels and wiring and setting of parameters and configurations. The purpose of the object being assembled is "to act." Its intent is to be used to someone's advantage. To gain power or control over specific others. To change someone else's policy, plan or priorities. ~~Divert~~ the course of events. Object creates influence away from its original position. Its action occur remotely, at a distance. Provides long distance "interdiction" or effect. Projects power capability. AOL/S of weapons system. Assembly activity is interrupted by group 2 who look different: bigger, taller, lighter complected. They are angry, resolute, determined, "like" "righteously indignant." They all wear the same color of clothes, may be carrying weapons and throw things, then stand back. Group 1 is taken aback by this activity and is perturbed, off balance, and upset. AOL of ~~flash~~ and explosion.
